LUNCH CHARGING PRIVILEGES

- Each student may charge their lunch with parental permission as outlined below.
- Once permission has been granted, the student will swipe their fingerprint on the lunchroom scanner and their lunch purchases will be charged to the parent’s account.
- A student may charge lunch without having money on their account, but all unpaid balances must be paid in full at the end of each month. Any family that does not pay the balance in full each month may lose charging privileges and any other fiscal result as outlined on the Financial Agreement.

I, _____, give permission for my student(s), as listed below, to have a lunch charging privileges. I agree to pay the balance of the lunch charge account at the end of each month. I understand that not paying the balance in full each month may result in the loss of charging privileges and any other fiscal result as outlined on the Financial Agreement. I have read and agree to the guidelines as listed above.
